Customer Intelligence

Business Insight

The following 10 customers are at risk, based on long periods since their last order. Each has placed **1 order** and generated **179.90 BRL** in revenue:

1. **06bdfbbe1857c3c925ec81abfb1c9666** — Recency: **693 days**
2. **062db47088ed7f674d6716ebee9e6b9** — Recency: **468 days**
3. **192c19a0d5f04c61938a13e602697fbe** — Recency: **462 days**
4. **06a1c3debf78ec7a3525040f6d9c16fb** — Recency: **460 days**
5. **23686693b97e6a4b92c08e7ff87d4317** — Recency: **460 days**
6. **2091566068d3f2e7d7524403dacb695f** — Recency: **457 days**
7. **2bc8fe8dd2b31bb2bb7601ca808b33e4** — Recency: **414 days**

8. **177c2c5ccd436a4e269cc71050d6486f** — Recency: **413 days**
9. **018b0a8d048e41f2d1f55e56dcbd335c** — Recency: **400 days**
10. **26d58e42c6ae618b178d9b0c60a96f32** — Recency: **394 days**

Why It Matters

These customers have not ordered for approximately **394 to 693 days**, indicating extended inactivity. Since each customer has only **1 order**, there is limited purchase history for each relationship.

Recommended Action

Prioritize re-engagement outreach starting with **06bdfbbe1857c3c925ec81abfb1c9666**, followed by the customers with the longest recency. Track these customers separately because all have the same recorded revenue and order count.
