Why did revenue decline in June 2018?

Ask Copilot

Copilot Analysis

Business Insight

Revenue declined **12.43% in June 2018**. The decline was driven by both a **9.44% decrease in customer count** and a **3.29% decrease in revenue per customer**. The main category decline contributors were **musica, cine_foto, alimentos_bebidas**.

Why It Matters

The business generated less revenue because it had fewer customers and each customer generated slightly less revenue. The declines in **musica, cine_foto, alimentos_bebidas** were the main category-level contributors.

Recommended Action

Investigate the causes of the revenue decline, focusing on **customer acquisition and retention**, as well as performance in **musica, cine_foto, alimentos_bebidas**.
